SUMMARY

Hello! I'm Edgar Ferreira, a product engineer from Aracaju, Brazil, dedicated to crafting experiences that connect strategy, design, and technology.

With over 5+ years of experience, From early discovery to launch, I partner with founders and teams to define requirements, prototype flows, and lead implementation across APEX apps, APIs, and data models. I've shipped work for finance, logistics, and media companies, with a stronger focus on the Oracle ecosystem.

Curiosity keeps me multidisciplinary. Whether I'm mapping journeys with UX research, refining handoffs in Figma, or orchestrating delivery with CI/CD and observability, my goal is simple: deliver products that feel intentional and hold up in production — now with a focus on Oracle platforms.

SKILLS

Oracle APEX (Apps, Reports, Forms) • Oracle Database (SQL/PLSQL) • Oracle Cloud Infrastructure (OCI) • Oracle Fusion Cloud (Integrations) • API Design (REST) • Oracle + Legacy Integrations • Performance & Data Modeling • Security & Access (Roles/Grants) • CI/CD (Jenkins, GitHub Actions) • Observability (Grafana, Sentry) • Strategy Workshops • Stakeholder Alignment • Product Discovery • UX Research • Design Systems

EXPERIENCE

Memora Processos Inovadores

Mar 2025 – Present

Oracle APEX Developer · ANTAQ: APEX apps for process management and Oracle Database integrations.

Serigy

Nov 2023 – Present

Head of Technology · Leading digital solutions for SMBs with secure, cloud-enabled architectures.

WW Software

Sep 2023 – Nov 2023

PHP Developer · Guided migration to Laravel and modernized legacy PHP services.

Minha ISA

Dec 2022 – Sep 2023

Oracle APEX Developer · Built APEX apps with REST integrations and operational reporting.

Minha ISA

Apr 2022 – Jun 2022

Oracle APEX Developer · Maintained APEX applications focused on usability and performance.

EightSystems
Jul 2018 — Apr 2021

Oracle APEX Developer · Evolved APEX modules for PayGate and financial workflows.

EightSystems
Jan 2018 — Jul 2018

Oracle APEX Developer · Delivered APEX routines for ERP and integrations with legacy services.

EightSystems
Aug 2017 — Oct 2017

Oracle APEX Developer · Prototyped APEX forms and screens for logistics operations.

EDUCATION

- Systems Analysis and Development
- Product Design — Design Circuit
